Manage Applicants

View all of your applicants in one place, track their status and take action.

Review their application, and progress them to the next stage with a few clicks.

All the information is at your finger tips. From personal details and qualifications to aptitude tests and inductions.

Application Form

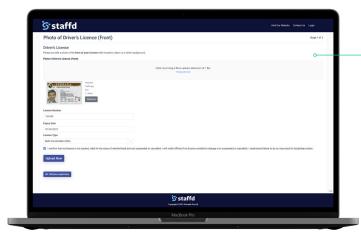

Staffd has a customisable and simple application form designed to make the data entry process a breeze. Give us your application questions or use our standard format.

Gather all the data you need to make the right hiring choice in just a few clicks.

් staffd		Visit Our Website Confact Us Login
Application Form		Stage 1 of 3
> Section 1 - Your Details		
Section 2 - Emergency Contact Details

3

Uploads

Applicants upload copies of licences and qualifications and provide data for ease of validation, streamlining the selection process.

Choose which qualifications are required or optional to ensure you are gathering the skillsets required.

Data and uploads are available for integration with other systems.

Progress Applications

Hold-Points allow for application review and the ability to progress the applicant to the next stage of the process, or rejection, based on your requirements.

Review all application details in a simple online view. Make the decision is a few easy steps.

Form Uploads

Applicant can complete required forms and upload for use by your admin team.

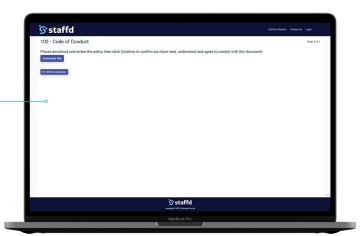

No more paperwork and delays getting what you need.

4

Policy Downloads

Applicants download and view your company policies as part of your induction process.

Tracking can be accessed at anytime to ensure all policies have been viewed.

Company Inductions

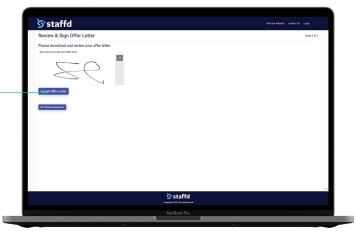

Have applicants complete your company induction online. Include text, images and even videos.

You can also add external client inductions and track their completion.

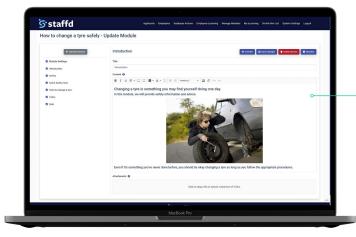

Staffd making inductions easy!

Offer

The applicant can digitally sign and download their offer letter. Meet your legal requirements in a few simple steps.

eLearning So simple

Build your own eLearning modules and push to individuals or groups of employees. Track the completion status with a simple whole of business view.

Include your own content and images to provide a clear message to your teams.

Your Own Engaging Content

Add your own training videos to eLearning modules to create an engaging experience with a clear message.

Modules can be viewed and completed on any device, anywhere.
